

NATIONAL ASSEMBLY QUESTION 2116

**Mr. P van Dalen (DA) to ask the Minister of Energy:**

Whether Eskom continued with the normal uninterrupted supply of electricity to foreign countries during periods of load shedding; if not; if so, why? NW2390E

**Reply**

Load shedding falls within the operational mandate of Eskom, which reports directly to the Department of Public Enterprises. Accordingly, the response should come from the Department of Public Enterprises.
