

**MINISTRY OF ENERGY
REPUBLIC OF SOUTH AFRICA**

National Assembly Question 1506

Mr G S Radebe (ANC) to ask the Minister of Energy:

What are the relevant details of her department's plan to promote co-generation of electricity? NW1781E

Reply

In March 2012, the Department issued a request for information (RFI) on potential developers of Co-Generation, Coal, Natural Gas and Imported Hydro, in order to ascertain what is available in the South African market. The Department is currently busy with a process of initiating a procurement process to procure co-generators in line with the medium term risk mitigation plan, as stipulated in the Integrated Resource Plan (IRP2010).
