3127. Mr J F Smalle (DA) to ask the Minister of Energy:

Have any services that have been offered by the UTi supply chain management company been outsourced by PetroSA to assist in the operations at the Ikhwezi gas fields?

Reply :

UTI is the logistics (freight and forwarding) service provider for PetroSA, appointed through an open tender process. We are not aware of any logistics services provided by any other Company for Project Ikhwezi.
