**Memorandum from the Parliamentary Office**

**★204. Prof N M Khubisa (NFP) to ask the Minister of Energy:**

Whether there are any municipalities within Uthungulu District Municipality that have households without electricity; if so, (a) what is the total number of the specified households and (b) when will the electrification programme reach the specified households?  
NO2022E

**Reply**

Yes, there are approximately 13 500 households in the Uthungulu District Municipality without electricity. (a) The numbers of households per municipality without electricity, as well as the separation between Eskom and Municipality driven projects are listed in the attached spreadsheet; and (b) the financial years in which these backlogs will be addressed are also indicated in the attached spreadsheet. It must be noted that the financial years listed, are the years when the funds will be made available and not the completion date of the respective projects.
