“ I did not receive my COVID-19 vaccination code via SMS, why did this happen? ”

There are **THREE** possible reasons

1 The SMS did not reach you due to **mobile network issues** at the time.

2 Your mobile number is not correct on **EVDS**.
Your vaccination record was not captured on the **EVDS** at the time of vaccination. You can verify this by calling the **COVID-19 Public Hotline** at **0800 029 999**

3 If the agent cannot confirm your vaccination record on the **EVDS**, you should contact the site where you were vaccinated to capture your record on the system.
